

Where would

you

rather be?

PNEUMONIA KNOWS NO SEASON!

Unlike the flu, you can get pneumonia any time during the year.

Did you know there is a shot you can get any time of the year that can help protect you from pneumonia? The shot is safe and effective and has been proven to prevent pneumonia. Most people only need one for life.

Wouldn't you rather be spending your time with family and friends than being sick in bed?

Ask your doctor about getting a pneumonia shot today!

Medicare Part B pays for pneumonia shots for eligible patients.
